“I Wanna New Drug”
Newly Approved Prescription Medications and Their Clinical Dental Implications
(This course is acceptable for the 3.0 CEUs required for Local Anesthesia License renewal)

This program will provide participants with an update and overview of selected, new prescription drugs approved by the FDA over the past several years. Throughout the program, special emphasis will be given to those new drugs whose actions, side effects, or interactions with other drugs may impact dental therapy.

“Just Breathe”
Dental Considerations in the Treatment of Chronic Obstructive Pulmonary Disease
(This course is acceptable towards the PHDHP License renewal ~ 3.0 of the 5.0 CEUs)

Chronic obstructive pulmonary disease (COPD) is the fourth leading cause of death in the United States. While approximately 12 million Americans are currently being treated for this disease, another 12 million have symptoms, but remain undiagnosed. This program will provide participants with an overview of COPD, the medications used in its management and the impact of both the disease and its treatment on dental therapy.

Tom A. Viola, RPh, CCP

Thomas A. Viola, RPh, CCP, is a registered pharmacist and pharmacy consultant, as well as, a professional speaker and published writer. He is a member of the faculty of the dental hygiene programs at five colleges throughout New Jersey and Pennsylvania.

As an educator, Tom has instructed students in pharmacology, anatomy and physiology, and has provided many professional board review courses. As a professional speaker, Tom has presented numerous continuing education courses on dental pharmacology and local anesthesia to practicing dental professionals nationally and internationally. As a published writer, Tom is a regular contributor to several dental and dental hygiene professional journals.

To contact Tom, call (609) 504-9252 or email him at thomas.viola@comcast.net. Visit Tom on his website at www.thomasviola.com. Find him on Facebook at www.facebook.com/dentalpharmacology and www.facebook.com/dentallocalanesthesia and follow him on Twitter @thomas_viola.

          215-364-2000
          GPS use 19053 or Feasterville

This course will review current laser systems and protocols under investigation and/or in clinical use. Laser assisted treatment of periodontal disease has come a long way since its introduction in the early 1980s. The dental health care provider has many options available regarding laser systems and protocols.

“Facial Beauty – The Science and Art of Evaluation and Treatment”

This course will question and challenge what we believe constitutes facial beauty. We will explore the five principles of design and how they help to define esthetics. The process of aging will be reviewed with discussion of patient desires to reverse or minimize these effects. We will define the boundaries of the “smile” and explore other modalities of improving our patient’s “smile” in accordance with these five Principles, taking in to account their biologic age. Some basic, minimally invasive cosmetic facial procedures, along with other treatment modalities, will be reviewed.

Dr. Scott K. Smith

Dr. Smith’s educational achievements include a B.S. in Honors Biochemistry from the Pennsylvania State University, a D.D.S. from the University of Maryland School of Dentistry, and a Certificate in Periodontology from the University of Maryland and Bethesda Naval Hospital.

Dr. Smith has been in full time clinical practice since 1993 and in his current King of Prussia location since 1997. He has lectured nationally on subjects including dental implants, perio-pathogenesis, chronic inflammatory disorders, surgical & non-surgical periodontal therapy as well as advanced clinical treatment planning. Dr. Smith is the director of the Valley Forge Dental Forum which was founded to help educate area dentists and hygienists in their pursuit of excellence. Dr. Smith has been featured on the Discovery Health Channel for his professional expertise in the field of implant dentistry and smile esthetics.

Dr. Smith has been recognized every year since 2001 by the Main Line Today magazine as one of Main Line’s top dentists. He also has been recognized by the Times Herald as Montgomery County’s Best Periodontist and Implant Specialist in 2009 and 2010.

Areas of interest and subspecialty include Laser Periodontal Therapy. Dr. Smith has trained extensively with The Institute for Advanced Laser Dentistry and is licensed to provide LANAP treatment. He currently lectures and provides seminars on the advantages of laser periodontal therapy.

Periodontal Plastic Surgery and Cosmetic Treatment have been particular interests including esthetic gingival grafts, optimizing tooth proportions for maximum smile enhancement, anterior dental implants and correction of smile deficiencies.

Dr. Smith’s additional focus is on Facial Esthetics, and he is one of only a few periodontists in the country to be certified in the treatment of Minimally Invasive Cosmetic Procedures. This merger of facial esthetic treatment with Periodontal and Dental Cosmetic Treatment gives Dr. Smith the unique capability of providing patients with a truly “comprehensive smile” from the eyes to the chin and everything in between.
