ABOUT OUR SPEAKER

Amy L Kinnamon RDH is the North America Professional and Scientific Relations Manager for Procter and Gamble Professional Oral Care; an international speaker; as well as a regular contributor to *AGD Impact*; a consultant directly involved in educational curriculum development and marketing; and a business owner with twenty-four years of experience in the dental industry. Amy has committed herself to a career that provides not only patients but also her colleagues the knowledge of the importance of total wellness. She is a Board member of the Jackson County Homelessness Committee and serves as a Director of the Free Health Clinic of Jackson County. She is a 2014 recipient of the

Crest/Oral B Pros in the Profession Award, the 2015 Sunstar/RDH Award of Distinction, and the 2016 Young Dental Caring Clinician Award for service to her hometown in Southeastern, Ohio. Amy is currently holds a Master's of Organizational Leadership, a BS from Ohio University, a BSASc from Youngstown State University, and certifications in corrective exercise, ergonomics, and positive psychology.

AM Course (3 CEUs) 8:30 – 11:30 AM
***“You, Chronic Illness and Periodontal Disease:
What Every Dental Hygienist Needs to Know”***

Course Description:

Understanding the perio-systemic link is vital to our role as dental health professionals. Pathogenic oral bacteria have been implicated in direct correlation with a host of systemic diseases from heart disease to rheumatoid arthritis. Inflammation, chronic disease, and the connection to periodontal disease is the focus of this course. By committing to an interdisciplinary approach to care we are key stakeholders in restoring our patients to total health. Attendees will explore the correlation between periodontal disease and a host of systemic illnesses. This course includes a review of the literature concerning the perio-systemic link and how to communicate those findings to our patients to facilitate whole body health.

Upon Completion of this course, participants will be able to:

- Create protocols that facilitate a more systemic approach to periodontal therapy
- Define the correlation between periodontal disease and systemic illness
- Discuss chronic inflammation and its effect on total body health
- Educate patients with clear perio-systemic communication for treatment acceptance
- Identify chronic systemic illnesses in direct correlation with periodontal

PM Course (3 CEUs) 12:30 – 3:30 PM
***“Optimizing Hygiene: Regenerative Therapies and
the Role of the Dental Hygienist in
Everyday Clinical Practice”***

Course Description:

As dental professionals we are ethically, legally and morally obligated to ensure our patients are given all the treatment options to ensure they make an informed decision. When we educate our patients in this way we allow them to become their own dental healthcare advocate. In order to appropriately educate our patients we must first ensure that we are educated in the latest dental technologies ourselves. We will discuss the history of periodontal disease and compare what we knew then and what we know now. This course is designed to provide the dental professional with the most recent evidenced-based protocols and decision tree for treatment or referral as well as explore the capabilities and benefits of regenerative therapy. We will discuss surgical and nonsurgical therapies for periodontal diseases. A review of the literature on regenerative therapies and their modalities will be included in this course.

Upon Completion of this course, participants will be able to:

- Create protocols to establish a more periodontally aware practice
- Define evidence-based periodontal treatment protocols
- Describe the indications, methods of use and regenerative potential of regenerative therapies
- Discuss the biologic basis for bone and soft tissue response

Registration Deadline: April 8, 2018

Late Registration Fee: \$30.00

Name: _____ (Please Print Legibly)
